We believe that building our products around standardized components will provide efficient, consistent, and scalable solutions. As part of our approach, we only use components from the best-in-class, fully-tested manufacturers in our integrated forensics product line.
INTRODUCING THE CELLEBRITE UFED TOUCH

- Streamlined for mobile forensics with the touch screen
- Unrivaled device support - BlackBerry, iOS, Android, Nokia, Symbian, Microsoft Mobile, Palm, phones manufactured with Chinese chipsets, and more
- Packaged for portability in our all-in-one triage kit including triage software
- Choose the UFED Touch 2 Logical to perform logical extractions or the UFED Touch 2 Ultimate to perform both physical and logical extractions

ADF SOLUTIONS SOFTWARE

- Versions: Triage-Investigator, Triage-Digital Evidence Investigator Software (DEI), and Triage-G2
- Extreme ease of use
- Find critical evidence in minutes
- Single device to scan computers using Windows, Macintosh, and Linux platforms
- View results directly on suspect computer
- Scan computers that are on and off
- Confidently maintain chain of custody with a forensically sound process
- Advanced image analysis to quickly identify illegal images
- Scan multiple computers simultaneously with a single license to lower investigation costs (in the DEI and G2 versions only)
- Stealth mode for covert operations (in the G2 version only)

REDUCING BACKLOG

Due to the lengthy amount of time required for full examinations of devices, digital forensics labs are burdened with growing backlogs. Since 40-50% of examinations show negative results, using the Cellebrite UFED and ADF Solutions Software can allow the user to quickly scan and qualify the device for seizure and further examination. Backlogs may be reduced by up to 90% within the first 6 months of using our kit and will cut the expenses and time of the labs.

OUR GUARANTEE

Our systems are thoroughly tested for reliability and performance and come with a 1-yr warranty.

MOMENTUM MT400 DIGITAL FORENSICS MOBILE TRIAGE KITS

Featuring Cellebrite UFEDs and ADF Solutions Software

Never before has anyone brought all this together. The TRITECH Digital FORENSICS Momentum MT400 Digital Forensics Mobile Triage Kits are one-of-a-kind field acquisition tools that include your choice of a Cellebrite universal forensics extraction device (UFED) and the superior ADF Solutions Software. Our kits are housed in a Pelican case with laser-cut foam to organize every item. This case also includes wheels for mobility and is the FAA maximum carry-on size, making travel easy.

TRITECH Digital FORENSICS is proud to be a partner with Cellebrite and ADF Solutions. Our kits are available with your choice of Cellebrite UFED Touch 2 Logical or UFED Touch 2 Ultimate devices and are supplied with a full complement of cables and accessories for mobile forensics investigations in the field or lab.

The TRITECH Digital FORENSICS Momentum MT400 Digital Forensics Mobile Triage Kits with Cellebrite UFED Touch 2 Logical or UFED Touch 2 Ultimate devices include an easy-to-use touch screen. The UFED Touch 2 Logical kits perform fast, logical extraction of data from a wide range of legacy and feature phones, smartphones, and handheld tablets. The UFED Touch 2 Ultimate allows for the most technologically advanced extraction, decoding, analysis, and reporting of mobile evidence. It performs physical, logical, file system, and password extraction of all data, even if deleted, from the widest range of devices, including legacy and feature phones, smartphones, portable GPS devices, tablets, and phones manufactured with Chinese chipsets.

Investigators and first responders need the ability to quickly investigate and extract evidence from computers and other digital devices due to time-sensitive information and to assist forensics labs by qualifying devices for seizure. The biggest challenges today are complex software, bulky hardware, and time-consuming data collection and analysis. Our Momentum MT400 Digital Forensics Mobile Triage Kits include your choice of ADF Solutions software. They are deployed in a plug-and-play approach using a small, portable USB device to allow for fast results and are available in three versions: Triage-Investigator, Triage-Digital Evidence Investigator Software (DEI), or Triage-G2.

MOMENTUM MT400
DIGITAL FORENSICS MOBILE TRIAGE KITS
Featuring Cellebrite UFEDs and ADF Solutions Software

UFED CELL PHONE TIP AND CABLE SET
- Includes all necessary cell phone tips and cables to view and capture digital evidence
- Organized into divided folder
- Velcro closure

FARADAY POUCHES
- One Cell Phone Touch Pouch
- One Laptop/Notebook Pouch

LARGE STORAGE POCKET
- Velcro flap closure and adjustable strap to hold contents safely in place
- Perfectly sized to store your laptop computer, case file folders, or similarly sized items

STORAGE POUCH
- Zippered closure for securing contents
- Perfectly sized for storing CDs, flash drives, chargers, or other similarly sized items

RUGGED USB TUBES
- Two 32 GB shock-resistant USB 3.0 tubes

RUBBER OVER-MOLDED TOP HANDLE

PELICAN 1510 CASE
- Interior Dimensions: 19.75” x 11.00” x 7.60”
- FAA maximum carry-on size

BUILT-IN SMOOTH ROLLING WHEELS
- Made of strong polyurethane with stainless steel bearings

RUBBER OVER-MOLDED SIDE HANDLE

SUPPLIED HARDRIVES
- Two 1 TB hardrives

RETRACTABLE HANDLE

FARADAY POUCHES

RAPID STORAGE POCKET
- Velcro flap closure and adjustable strap to hold contents safely in place
- Perfectly sized to store your laptop computer, case file folders, or similarly sized items

CHOOSE A CELLEBRITE UFED:

UFED TOUCH 2 LOGICAL - Enables fast, logical extraction of data from a wide range of devices with an easy-to-use touch screen

UFED TOUCH 2 ULTIMATE - The most technologically advanced extraction, decoding, analysis, and reporting of mobile data with physical, logical, file system, and password extraction of all data (even if deleted) from the widest range of devices with an easy-to-use touch screen

ALL MT400 KITS INCLUDE:
- Pelican 1510 Case with Built-In Smooth Rolling Wheels
- Laser-Cut Foam, Large Pocket, and Storage Pouch
- 1 TB Hardrives (2 per kit)
- UFED Cell Phone Tip and Cable Set
- 32 GB Rugged USB 3.0 Tubes (2 per kit)
- Faraday Pouch: Laptop/Notebook
- Faraday Pouch: Cell Phone
- Digital Camera
- Choice of Cellebrite UFED * See right
- Choice of ADF Solutions Software * See below

CHOOSE AN ADF SOLUTIONS SOFTWARE:

ADF SOLUTIONS TRIAGE-INVESTIGATOR
- Designed with the U.S. Department of Homeland Security Science and Technology to supply detailed field reporting capabilities for nontechnical users

ADF SOLUTIONS DEI SOFTWARE
- With advanced search capabilities to analyze and qualify evidence fast to reduce forensics backlog

ADF SOLUTIONS TRIAGE-G2
- The media exploitation tool of choice for the U.S. Department of Defense to deploy in sensitive site exploitation toolkits for its operators
